	Standard and High Balance		
	 The lower interest rate is not produced solely from discount points. In other words, the interest rate environment is such that some portion of the lower interest rate on the refinancing loan is the result of favorable changes in the market as compared to the Veteran's current rate. The lower interest rate is produced solely from discount points equal to or less than 1 and the resulting loan balance after fees and expenses maintains a loan to value (LTV) of 100 percent or less The lower interest rate is produced solely from discount points greater than 1, and the resulting loan balance after fees and expenses maintains an LTV ratio of 90 percent or less 		
	 The LTV requirements noted above must be verified by one of the following (depending on property type): Exterior-Only Inspection Residential Appraisal Report (Fannie Mae 2055) Uniform Residential Appraisal Report (Fannie Mae 1004) Exterior-only Inspection Individual Condominium Appraisal Report (Fannie Mae 1075) Individual Condominium Unit Appraisal Report (Fannie 1073) Other industry accepted appraisal reports for manufactured homes and multi-unit homes The cost of the appraisal must be included in the cost to recoup.
