- For all mortgages regardless of their amortization terms, any mortgage involving an original principal obligation (excluding financed Up-Front MIP (UFMIP)) less than or equal to 90 percent LTV, the annual MIP will be assessed until the end of the mortgage term or for the first 11 years of the mortgage term, whichever occurs first.
- For any mortgage involving an original principal obligation (excluding financed UFMIP) with an LTV greater than 90 percent, FHA will assess the annual MIP until the end of the mortgage term or for the first 30 years of the term, whichever occurs first.

Annual MIP is determined by multiplying the base loan amount by the appropriate Annual Premium factor

Since the Annual MIP is collected in monthly installments, divide the resulting number by 12 to obtain the monthly premium. This figure is included in the proposed monthly housing expense and qualifying ratios.

For Streamline Refinance of previous Mortgage endorsed on or before May 31, 2009

For Mortgages where FHLA does not require an appraisal, the value from the previous Mortgage is used to calculate the LTV.
